

Klove is the best station that I have ever had the chance to listen too full-time! I have it on the internet because it is not accessible in our area as of yet over the radio. I am pleading for the cause for all those people who listen over the radio-waves. It is an encouragement and an uplifting spiritual blessing and it would be a crime against our rights as American citizens in this free country to take this station away from those who value it's blessings as much as I do! I wish we did have it locally because it would be one of the most beneficial radio stations to our community! Please do not deprive us of enjoying this radio station!
